Foreword

The National Cancer Institute of Sri Lanka is the premier cancer treatment centre out of the nine centers attached to the Teaching and Provincial General Hospitals of Sri Lanka. The NCI provides its services to over 60,000 inward patients which include more than 14,000 new registrations annually coming from various areas of the country. Out of these new registrations, patients identified as malignant are being managed with specialized treatments.

The “**Statistical Review – Patients Registered in 2013**” is the 9th publication in the series started in 2006 contains data of cancer patients registered at National Cancer Institute Sri Lanka in 2013. The aim of this publication is to become a standard institutional cancer registry by providing accurate statistical data which is essential for clinicians, health administrators, researchers, policy makers and strategists in cancer related field.

I wish to express my gratitude to the Director, Deputy Director, and all Consultants for the valuable suggestions, encouragement, guidance and appreciation given for the improvement of this publication.

I am also grateful to the staff of the Medical Records & Statistics Unit for their support and assistance to make this venture a success.

We welcome your comments & valuable suggestions for further improvement of this annual publication.

Dr. L.D.Rathnasiri, (RMO)

Introduction to Apeksha Hospital (National Cancer Institute) Sri Lanka.

The Apeksha hospital (National Cancer Institute) is a teaching hospital, managed under supervision of the Ministry of Health Sri Lanka. It is the premium hospital dedicated to diagnose, treat and follow-up of cancer patients in Sri Lanka, located at Maharagama, 16 km away from Colombo, the capital of Sri Lanka.

It was first established as a radiotherapy unit with in ward facilities in 1958 and now it has developed into a tertiary care hospital with modern screening, diagnostic, & treatment facilities. The new “RAZAVI” building which added recently, consist of modern theater complex, bone marrow transplant unit, surgical & medical intensive care units, normal wards, and paying wards with all facilities, is a gold mark of the hospital history. Bone marrow transplant has commenced since December 2016 after establishing a new building with state of art facilities.

NCI, which spreads over 10 acres, provides patient care approximately 200000 outdoor patients and 60000 indoor patients per year with 28 wards and intensive care units consist of 950 beds. Forty eight Consultants, Post graduate trainees, Medical Officers and more than thousand four hundred health workers including nurses, pharmacists, radiographers, MLTs provide their service under the guidance of Director. Consultant Oncologists, Oncosurgeons, Oncogynaecologists, Haematooncologists and Physicians conduct outdoor clinics daily to follow up patients with malignancies by the help of all range of Hematological, Histopathological, Microbiological, and Radiological investigations under the supervision of respective consultants.

All kinds of radiological treatment methods including Mega voltage photon & electron therapy, Brachytherapy, and Iodine therapy are given free of charge. Physiotherapy, Speech therapy, Psychological Counselling, Pain anagement, Outdoor blood transfusion and Chemotherapy services are among the other services available in this hospital.

Establishment of bone marrow transplant unit and the PET-CT screening unit are the major achievements gained recently as becoming the only government institute which provide these facilities free of charge to cancer patients.
